

Kyle Schultz

Technical Writer & IT Documentation Specialist

kyle_schultz@ymail.com Dallas, TX

Technical support professional with over four years of experience creating standard operating procedures, workflow documentation, end-user guides, and clear technical explanations. Combines hands-on knowledge of Microsoft 365, Active Directory, Intune, PowerShell, EHR systems, and endpoint support with a practical, audience-focused writing style. Recognized for accurate problem-solving, strong user communication, and maintaining 95–98% SLA compliance in fast-paced support environments.

-

Dialysis Clinic Inc. – Dallas, TX

November 2024 – Current

IT Helpdesk Remote

- Authored and maintained IT workflows and standard operating procedures, improving onboarding and knowledge sharing across the support team.
- Translated Microsoft 365, EHR, hardware, and software issues into clear explanations and actionable troubleshooting steps for end users.
- Delivered Tier 1 and Tier 2 support for thousands of users across multiple clinics, helping minimize downtime in critical healthcare operations.
- Administered Microsoft 365 accounts and permissions while resolving access and application issues.
- Maintained 95% SLA compliance while handling an average of 150 FootPrints tickets per week.

Diamond Line Delivery Systems – Meridian, ID

April 2023 – November 2024

IT Helpdesk Tier 2

- Created process documentation and practical guides for end users and IT colleagues, preserving repeatable solutions for future reference.
- Documented recurring support workflows in clear, task-focused language to improve consistency and reduce avoidable escalations.
- Developed PowerShell automation that reduced manual configuration time by 20% and minimized repetitive errors.
- Supported an on-premises Active Directory to Microsoft Entra migration involving 150 users and computer endpoints.
- Administered Microsoft 365 and Active Directory, including account provisioning, permissions, security policies, password resets, and Group Policy.
- Configured and supported Zebra StageNow, Samsung Knox, Intune, and Vonage systems while explaining procedures to users and colleagues.
- Improved ticket response time by 15% through proactive monitoring and early escalation of recurring issues.
- Maintained 98% SLA compliance in Zendesk and collaborated with Tier 3 and engineering on complex incidents.

Darco Spirits – Las Vegas, NV

May 2021 – April 2023

Area Marketing Manager and IT and Field Support Specialist

- Created and maintained structured Excel reports for sales, shipments, merchandise, and daily operational information.
- Communicated product information and field procedures clearly to coworkers, customers, and retail accounts.
- Monitored customer-service metrics and delivered actionable feedback to team members to support consistent quality.
- Coordinated with team members across field support, events, sales, and day-to-day operations.

Blue Sushi Sake Grill – Dallas, TX

February 2019 – May 2021

FOH Manager

- Trained hundreds of employees in equipment maintenance and essential operating procedures, adapting instruction to different experience levels.
- Explained corrective actions clearly during escalated customer-service situations while maintaining composure under pressure.
- Set measurable performance targets and provided direct feedback to strengthen employee development.
- Maintained positive customer relationships by identifying problems and communicating practical resolutions.

Sea World – San Diego, CA

November 2018 – January 2019

Entertainer

- Helped train new performers by communicating best practices for guest interactions, costume handling, and safety.
- Provided supervisors with clear feedback about crowd management, character placement, and potential operational issues.
- Supported costume quality and safety standards while maintaining professionalism in high-traffic guest environments.
